

- 8:00am**     **See What's New at MRWA: Your Association**  
*MRWA: a year in review! See what's new in the industry and learn about the changes in store for water and wastewater operations specialists. Discover what's new for MRWA training opportunities, industry events, and new technology. See how networking can best benefit you in this industry.*
- 9:00am**     **Air Release Valves, Plug Valves, and Check Valves in the Collection System**  
*Learn about all of the valves in your facility and what they do. See how to maintain your valves. Do you know how many air release valves you have in your system and what their purpose is? Learn how to better understand the importance of properly working valves in your system.*
- 10:00am**    **Water / Wastewater Utility Line Locators and Equipment**  
*From conductive pipe and wire locating to trace wire locating, learn about the options you have to locate buried utilities in your community.*
- 11:00am**    **Wastewater Pipe Overview**  
*With many different vintages of pipes installed in wastewater collections systems, see how you can properly identify the type of pipe, how to repair them, and what are new styles that are available.*
- 12:00pm**    **Lunch - (On Your Own)**
- 1:00pm**     **Operator Electrical Safety Review in Your Utility**  
*Storms and power outages in our region often finds the operations specialist at the helm of using on-site or portable generators to regain power to your vital infrastructure. Learn valuable hints to do this correctly to avoid a tragedy or injury from common mistakes.*
- 2:00pm**     **eDMR**  
*Review the many questions that you have on completing the eDMR form reporting. Bring your questions! We will review common concerns that operations specialists have that need clarifying and helpful tricks to make eDMR reporting a breeze.*
- 3:00pm**     **Wastewater Pond System Operation and Maintenance Considerations**  
*This session will be a discussion of operation and maintenance considerations at the city of Baudette's wastewater treatment ponds. We will review discharge calculations, lift station calibrations, sampling protocols with pH and D.O., proper pond measurements for reporting, pre-discharge calculations, discharge calculations, and day-to-day operation maintenance.*
- 4:00pm**     **End of Day**

**April 12, 2017**

**City of Baudette**  
 Baudette Lakewood  
 Ambulance Building  
 111 1st Street SW  
 Baudette, MN
