

April 19, 2017 **SDWA Training**

City of Elk River
1104 Lions Park Drive NW
Elk River, MN

Safe Drinking Water Act Compliance Training

- 8:00am** **Understand the Revised Total Coliform Rule and Groundwater Rule**
**Drinking Water Quality Control: distribution system flushing is an important tool to achieve proper chlorine residuals and to provide clean, safe, quality drinking water. See new ideas and technology to make it safe, reliable, and cost effective.*
**Distribution System: locating your water mains can be a tricky process until now. New technology can assist utilities in better locating underground infrastructure with tracer wire.*
**Water Treatment: understand how to maintain water quality by perfecting your laboratory procedures.*
**Drinking Water Quality Control: learn about maintaining water quality and controlling disinfection by-products with the assistance of water agitators and reservoir mixers.*
- 12:00pm** **Lunch - (On Your Own)**
- 1:00pm** **Understand the Revised Total Coliform Rule and Groundwater Rule *continued***
**Drinking Water Quality Control: learn the sampling chain of command and proper record keeping at this session.*
**Water Treatment Facility Hazard Recognition: Understand the rules, regulations, and requirements of Minnesota OSHA. Discover what the ten most cited safety violations are.*
**Security Intelligence Sharing: discover the 'Water System Security' system and what to look for in criminal acts and terrorism with the 'See Something, Say Something' campaign.*
- 4:00pm** **End of Day**
