

MRWA WASTEWATER OPERATION & MAINTENANCE TRAINING SESSION

- 8:00am** **Maintaining Compliance in your Wastewater Treatment Facility**
Learn from the Minnesota Pollution Control Agency how to keep your treatment facility in compliance and a discussion on their new general pond permits. You'll also get tips from the lab on proper sampling procedures.
- 10:00am** **Inflow and Infiltration Ramifications, Sources, and Solutions**
See examples of inflow and infiltration, ways to find them, and ways to fix them.
- 11:00am** **Bio-Augmentation / Algae Control**
See the case studies of biosolids reduction in the wastewater treatment system as well as how to curb algae blooms during discharges.
- 12:00pm** **Lunch (On Your Own)**
- 1:00pm** **Innovative New Products for Utility Locating and Operator Safety**
Explore new underground trench products and locating equipment. Confined spaces and hidden dangers exist at every utility. Safety and confined space entry equipment is essential. Also, learn about grants available to purchase safety equipment.
- 2:00pm** **Sewer Force Main Air Release Valves**
This session will teach you everything you need to know about sewer force main air release valves, including how and when to replace them.
- 3:00pm** **Trenchless Sewer Main Rehabilitation Processes**
At this course you will learn ways to repair your sanitary sewer line without any digging.
- 4:00pm** **End of Day**
