

MRWA WATER OPERATION & MAINTENANCE TRAINING SESSION

AGENDA

- 8:00am **MRWA Updates and Services**
See what's new in the industry and learn about the changes in store for water and wastewater operations specialists. Get the latest on MRWA training, events, and technology.
- 9:00am **Calibrating Your Water Storage Tank - Made Easy!**
Learn what simple piece of equipment every water department should have to make calibrating your water storage tank a breeze!
- 10:00am **ISO (Insurance Services Office)**
Water departments are responsible for 40% of the ISO insurance score. Learn from the people who will be evaluating your water system how you could potentially improve your score.
- 11:00am **MDH Updates**
Learn from the Minnesota Department of Health what your responsibility is when you have a system pressure loss or low pressure during a planned outage or emergency repair to keep your system in compliance. Also, find out when you are required to hire an engineer for improvements and when you are not.
- 12:00pm **Lunch (On Your Own)**
- *1:00pm **Coupling and Repair Clamp Solutions for Water and Wastewater Applications**
Discussion at this session will be on installation capabilities with the HYMAX product line. On-site product application will be a part of this demonstration.
- 2:00pm **Hands-on Hydrant Repair in Rushford's Distribution System**
Fire hydrants are a part of every water system and are often neglected. See what new hydrant improvements are on the market to make maintenance easier and how to keep your older hydrants operating properly.
- 4:00pm **End of Day**

*Water Operator Certification Exam will be given at 1:00pm. You must pre-register with the Minnesota Department of Health 15 days prior to the training session.
