City Hall / Community Center
8586 Enterprise Drive South
Mountain Iron, MN

Safe Drinking Water Act Compliance Training

8:00am **Understand the Revised Total Coliform Rule and Groundwater Rule**

- *Water System Treatment: learn about water reservoir mixing solutions to improve chlorine distribution in your system.*
- *Water Distribution System: learn how to protect your customers with new lead-free distribution system products. Also learn about leak detection practices for promoting water conservation.*
- *Water Distribution System: understand the importance of water meters and how one meter might be a better option for your system over another meter choice. See how water meters play a role in water conservation and fairness.*
- *Operation and Maintenance: learn how the SCADA really works and what you can expect from your integrator. See what to look for during installation and system upgrades.*

12:00pm **Lunch - (On Your Own)**

1:00pm **Understand the Revised Total Coliform Rule and Groundwater Rule continued**

- *Water Treatment Facility: top 10 cited violations. See the rules, requirements, and equipment that is needed for proper workplace safety.*
- *Security Intelligence Sharing: discover what to look for in criminal acts and terrorism in the water industry. Learn about the 'See Something, Say Something!' campaign and cybersecurity tips.*
- *Water Operations and Maintenance: this session will be a group roundtable discussion on what's new in the water industry, planning your future water projects, and what has been working well and what has not been working well. Bring your questions!*

4:00pm **End of Day**

About the Class:

Get valuable information you need from our expert trainers to maintain compliance with the Safe Drinking Water Act (SDWA) and state regulations.

Technical assistance to address compliance issues is available from Minnesota Rural Water Association at no cost.
