

- 8:00am MRWA Updates**
See what's new in the industry for jobs, opportunities, new rules and regulations, and updates. Bring your questions and learn and network new events in Minnesota.
- 9:00am MnWARN - Minnesota Water/Wastewater Agency Response Network**
Learn how MnWARN benefits your water or wastewater system. Join Gerry Kluck, MnWARN's Region 3 Director, for an overview and informational session on MnWARN.
- 10:00am Bio-Augmentation / Algae Control**
See the case studies of biosolids reduction in the wastewater treatment system as well as how to curb algae blooms during discharges.
- 11:00am Lift Station Calibration and Flow Data Collection**
Many lift stations need to be calibrated twice per year. Learn about technology to assist you as the operations specialist in calibrating a lift station using mag meter technology and/or other new types of industry leading calibrating.
- 12:00pm Lunch - (On Your Own)**
- 1:00pm Field Laboratory Equipment**
As a wastewater operations specialist, there are several analytical tasks that need to take place in the field immediately. Learn about pH and dissolved oxygen calibration, temperature and specific conductance, standard operating procedures, and methodology in using field analytical equipment.
- 2:00pm Wastewater Pond Optimization**
This session will revisit basic pond maintenance considerations and will dive into optimization strategies to operate ponds to reduce nutrient loading with the best operational tweaks.
- 4:00pm End of Day**

May 16, 2018

City of Hawley

City Hall
305 6th Street
(East of Water Tower)
Hawley, MN
