

- 8:00am MRWA Updates: What's New in the Industry**
See what's new in the industry and learn what MRWA can do for you. Technology, mapping, information: all at your fingertips! This session will be a roundtable discussion on questions and concerns you may have with your wastewater systems. Also, a live eDMR submission will be performed!
- 9:00am What Do You Know About SCADA?**
Learn how the SCADA process works and what you should expect from a computer programmer on your next SCADA system. This session is a must-know for operations specialists.
- 10:00am Wastewater Collection System Air Relief Valves**
Discover what an air relief valve is and where they are located in the collection system. Learn how to operate and maintain air relief valves that are very important to your pump stations!
- 11:00am Collection System Root Problems**
If you have collection system root problems or pond solids build up, this session will show you a new process to destroy roots in your collection system. Learn about innovative ways to deal with odors, grease, and lift station issues and also bioaugmentation in the wastewater treatment pond or plant.
- 12:00pm Lunch - (On Your Own)**
- 1:00pm New Collection or Distribution Project in the Future?**
Understanding the trace wire specification with proper installation and locating for your next project will be covered in this session. Learn to use a locator on-site at Walker's collection system project that was just completed in 2016. See on-site the complete trace wire system that was used.
- 2:00pm Wastewater Treatment Ponds**
This session will cover high pH in ponds, algae blooms, algae control, and sampling techniques.
- 4:00pm End of Day**

May 10, 2017

City of Walker
Fire Department
701 Elm Street
Walker, MN

There is **NO** charge for this session.

To Register For Any Training Session: Call the MRWA Office at 800-367-6792 or online at www.mrwa.com. Use the training calendar link.

NRWA Announces New Association Logo

The association chose to update the logo based on NRWA's membership growth and program development since the previous logo. In the years since the previous logo was approved, NRWA has expanded to include a State Affiliate in all 50 states, launched Water University, the WaterPro Community, the WaterPro Conference and the Workforce Development Center's apprenticeship program. NRWA has also expanded the offering in its Products and Services Portfolio. This portfolio was designed to offer unique options specifically-designed to benefit water utilities. These products and services include the Rural Water Loan Fund; Insurance for line breaks and data breaches; customer contact services; website design and hosting; lifestyle health plans; and mobile forms and work orders. Learn more at: www.nrwa.org and www.mrwa.com.
