

MRWA "Water Softening 101" Online Training

December 15th - 10am - 11am

Minnesota Rural Water Association (MRWA) is providing a series of webinars for small public water systems during these unique and challenging times while our in-person training is on hold. We understand that with the postponement of our in-person training, you still need certification credits for your water operator certificate. These online training webinars are accredited and can be used towards your water operator certification renewal.

Our next webinar will be held on **December 15, 2020, at 10am**. Jennifer Koenig and Kyle Kedrowski, MRWA technical advisors, will be the speakers during this webinar. We will cover the basics of water softeners including operation, maintenance, and troubleshooting water softener problems.

If you have questions that you would like to email us prior to the webinar, please send them to us at mrwa@mrwa.com and we will include them in the webinar.

To register for this webinar, please click on the link below. **Each operations specialist must register and sign-in separately on your own device to receive credit for attending the webinar.** *If you have any questions about the webinar or how to register, please feel free to call our office at 800-367-6792. We hope you will join us!*

You MUST watch the full session to get 1 Water Certification Hour awarded on your own device.

Instructors: Jennifer Koenig and Kyle Kedrowski, MRWA technical advisors.
