

# MRWA "An Introduction to Chlorination & Phosphates for Small Public Water Systems" Online Training

**January 21st - 10am - 11am**

Minnesota Rural Water Association (MRWA) is providing a series of webinars for small public water systems during these unique and challenging times while our in-person training is on hold. We understand that with the postponement of our in-person training, you still need certification credits for your water operator certificate. These online training webinars are accredited and can be used towards your water operator certification renewal.

Our next webinar will be held on **January 21, 2021, at 10am**. Mike Clemens with Hawkins Water Treatment Group will be the featured presenter. MRWA Technical Advisors Jennifer Koenig and Kyle Kedrowski will be assisting during this webinar. This training session will focus on how phosphates and chlorination are used to treat drinking water. Phosphates can help clean up dirty water (aesthetically) and help with corrosion control issues. Chlorine can be added into the drinking water for the purpose of disinfection and oxidation. This training session will also include a discussion on safe handling of chemicals, proper chemical tank labeling, and safety equipment needed for your protection

If you have questions that you would like to email us prior to the webinar, please send them to us at [mrwa@mrwa.com](mailto:mrwa@mrwa.com) and we will include them in the webinar.

To register for this webinar, please click on the link below. **Each operations specialist must register and sign-in separately on your own device to receive credit for attending the webinar.** *If you have any questions about the webinar or how to register, please feel free to call our office at 800-367-6792. We hope you will join us!*

*You MUST watch the full session to get 1 Water Certification Hour awarded on your own device.*

**Instructors:** Mike Clemens from Hawkins Water Treatment Group and Jennifer Koenig and Kyle Kedrowski, MRWA technical advisors.

**REGISTER for ZOOM MEETING on January 21st below:**
