

MRWA To Host a Series of Three
FREE
2-Hour Online Trainings Under the
Safe Drinking Water Act

Up to 6 direct water certification hours awarded for attending all 3 sessions.

December 3, 2020

10:00am - Noon

MRWA Updates

Bob Klug, MRWA Training Specialist - Industry Updates

Water Tower Winterization

Shawn Mulhern, KLM Engineering, Inc. - See a winter operations presentation that discusses what options the operations specialist has in managing the flow of the tower to minimize ice damage. This presenter will discuss circulator equipment inside of reservoirs to prevent ice build-up and maintenance options available to keep your tank in operation through the winter months.

Evolution of Locating Technology and Safety

Joe Rubbelke, UtilityLogic - See what's new in the line locating industry to make your job more efficient. Also, learn about some new safety equipment that is now available to make your job safer.

Register through ZOOM here!

You MUST register watch the full session on your own device to get 2 Direct Water Certification Hours awarded. Register for each session separately.

These Safe Drinking Water Act trainings are brought to you through a grant by the National Rural Water Association and US EPA. Get valuable information you need from our expert trainers to maintain compliance with the Safe Drinking Water Act (SDWA) and state regulations. Attend these sessions to learn how to keep your water system in compliance with state and federal drinking water regulations!
