**2-Hour Online Training Under the
Safe Drinking Water Act**

2 direct water certification hours awarded for full attendance

January 20, 2021

10:00am - Noon

MRWA Updates

Bob Klug, MRWA Training Specialist - Industry Updates

**Water System Planning & American Water Infrastructure
Act (AWIA)**

Brian Guldán, Bolton & Menk, Inc. - This session will cover AWIA requirements, cyber security, water system capital improvements and operations planning.

Ammonia In My Drinking Water - What's The Big Deal?

Ryan Kotta, Bolton & Menk, Inc. - This session will cover the basic water chemistry principals in the relationship between chlorine and ammonia. Attendees will develop a better understanding of the chloramination curve and what tests to run to determine where their system is operating. Understanding the relationship between chlorine and ammonia will provide operators with better process control, more consistent treated water quality, and increased user satisfaction.

Register through ZOOM here!

*You MUST register watch the full session on your own device to get 2
Direct Water Certification Hours awarded.*

**Register each attendee for session separately using individual e-mails. Do
not register multiple attendees with the same e-mail address.**

These Safe Drinking Water Act trainings are brought to you through a grant by the National Rural Water Association and US EPA. Get valuable information you need from our expert trainers to maintain compliance with the Safe Drinking Water Act (SDWA) and state regulations. Attend these sessions to learn how to keep your water system in compliance with state and federal drinking water regulations!
