

MRWA To Host “Winterizing Your Water System” Training Session!

Sponsored by MRWA's Corporate Partners: <http://www.mrwa.com/corporatepartners.html>

Properly maintaining storage tanks is vital to successful year-round operations. But when the cold weather blows in for the winter months, operations specialists must address concerns to guard against potential ice damage.

Speakers: AE2S; Copperhead; Ferguson Waterworks; Hawkins; KLM Engineering; & Minnesota Rural Water Association

8:00am	Introductions and Changes During the Winter Season
8:30am	Distribution Care in the Winter <i>How to take preventative measures to insure your water system is ready for the cold. From hydrants to valves and mains.</i>
9:00am	Water Tower Care in Sub-Zero Weather <i>Learn how to prevent ice damage and save your system costly repairs down the road.</i>
10:00am	Locating in the Winter? <i>How do you locate your infrastructure when it's below 4 feet of snow? See how new equipment can help you become more efficient at locating when it is the hardest.</i>
11:00am	Distribution Care in the Winter <i>From your wells to your hydrants, learn how to avoid issues by taking preventative measures in the summer time.</i>
12:00pm	LUNCH (Provided)
1:00pm	SCADA Issues in the Winter <i>Keep up with the latest technology and avoid nuisance issues that come up from cold weather. Simple things to keep your system working smoothly.</i>
2:00pm	Water Chemistry in the Winter <i>Learn how your water treatment and distribution system can change depending on the temperature. Are you ready to adjust your treatment?</i>
3:00pm	Round Table Discussion <i>Cold weather discussion and freeze prevention techniques.</i>
4:00pm	End of Day
