

Press Release - Minnesota Rural Water Association

March 20, 2017

Contact: Ruth Hubbard – Executive Director– 800-367-6792

Minnesota Rural Water Association presents the Extra Mile Award to Amy Schreader, UC Laboratory.

The Extra Mile Award is presented to an individual for efforts put forth above and beyond his/her normal scope of responsibilities assisting water/wastewater systems and their personnel. This award goes to the outstanding achievers in the water and wastewater industry that are recognized by Operations Specialists, Industry Members, Peers, and Friends.

This year's Extra Mile Award goes to Amy Schreader, UC Laboratory.

This individual is one of those bubbly people that everyone likes to be around. Minnesota Rural Water Association feels

lucky that she has chosen to be part of our association. Amy is the Quality Assurance Officer at UC Laboratory in Janesville, MN. She has been a big part of the success of UC Laboratory. They currently have 25 employees and provide water and wastewater analysis.

Amy has been very active with Minnesota Rural Water Association providing training at our water and wastewater classes across the state. Amy developed a Rural Water version of the game show 'Jeopardy' that has been a big hit, making training more fun and more educational. We always put Amy on the agenda right after lunch because we know she is going to keep everyone awake. If you are a sleeper you won't be for long when she eyes you up; she used to be a third grade teacher. A big thank you from the whole Rural Water gang for your friendship and the continued success of our organizations.

Congratulations Amy from the Minnesota Rural Water Association Board of Directors and staff.
